

**FINSERV**

**BAJAJ FINSERV ASSET MANAGEMENT LIMITED**

# **Bajaj Finserv Equity Savings Fund**

An open ended scheme investing in equity,  
arbitrage and debt

# Investor Choices: Balancing Stability and Growth

# The Investor's Dilemma

## Traditional Investment Avenues: Safe Bets, Sub-par Returns

While options like FDs and PPF offer capital protection, their pre-tax returns have struggled to keep pace with inflation, leading to low or even negative real returns over time.

Source: NSE, NPS, Top Bank of India FD rates are taken into consideration Data as on 30th June 2025.

## Equity Investing: A Cautious Approach to Growth

Equity offers growth potential but with significant volatility and sharp drawdowns along the way.

Is there a  
solution that  
balances both  
peace of mind  
and progress?

Is there a  
middle path?

## ● The Solution: Equity Savings Fund

A balanced portfolio of equity, arbitrage, and debt – offering growth potential and stability without the worries of inflation or high volatility.

# Benefit Of Both Worlds: Growth & Stability

**Debt Opportunity**

Provides downside mitigation and seeks to reduce the risk of invested capital during market downturns.

■ Debt
 ■ Gross Equity

**Equity Exposure**

Captures growth during the good times, so investors can still ride the upward waves

**Arbitrage Opportunity**

Investors navigate choppy waters, with low-risk arbitrage opportunities that take advantage of price differences in the market.

## ● Tax Advantage Over Traditional Investments

Component	Holding Period	Rate
Taxation on Equity Investments	> 12 months : LTCG	12.5%* on gains > ₹1.25 lakh
	≤ 12 months : STCG	20%
Taxation on Debt Investments	As per tax slab	
Equity Savings Fund (allocation more than 65% in equity)	> 12 months : LTCG	12.5%* on gains > ₹1.25 lakh
	≤ 12 months : STCG	20%

Equity Savings Funds offer better long-term post-tax returns than debt investments, benefiting from a lower 12.5% LTCG tax versus income tax slab rates—making them a tax-efficient investment choice.

## Equity Taxation or Stable Returns?

A conservative investor in a high-income tax bracket is confused about where to park his large savings corpus. He wants a low-volatile, inflation-beating, and tax-efficient investment product and has narrowed down his options to two.

Better Post Tax Returns with Equity Taxation

Post Tax Growth of ₹10 Lakhs

A conservative investor in a high-income tax bracket is able to seek relatively better post tax benefits in his investment in Equity Savings Index.

1 yr	Pre Tax Return	Post Tax Return
NIFTY Equity Savings Index Avg Daily Rolling Return	9.6%	7.7%
Traditional Debt Investment	6.1%	4.1%
Alpha	3.6%	3.7%

2 yr	Pre Tax Return	Post Tax Return
NIFTY Equity Savings Index Avg Daily Rolling Return	9.2%	8.1%
Traditional Debt Investment	6.3%	4.2%
Alpha	3.0%	3.9%

3 yr	Pre Tax Return	Post Tax Return
NIFTY Equity Savings Index Avg Daily Rolling Return	8.9%	7.8%
Traditional Debt Investment	6.5%	4.3%
Alpha	2.5%	3.5%

\*Traditional Debt Investment returns are FD Rates of a top bank in India and for equity savings we have taken the average return of NIFTY Equity Savings Index average of daily rolling return.  
 Source NSE data as on 30th June 2025.  
 Past performance may or may not be sustained in future. Returns from traditional instrument is fixed, however, returns from Mutual Fund schemes are subject to market risk. Investor should consult with financial advisor before investing in mutual funds

# Why invest in Equity Savings Fund?

**Lower Volatility**  
**Much lower drawdowns** than pure equity funds – especially during market corrections

**No lock-in period**  
 Liquidity remains flexible

**Smart Park-and-Grow strategy**

For investors shifting out of equity or awaiting opportunities, this serves as a strategic low-volatility, tax-optimized parking option

# Introducing Bajaj Finserv Equity Savings Fund

Actively managed, hybrid strategy designed to participate in equity upside, reduce volatility, and offer tax efficiency

### NET EQUITY

Our fund’s net equity portion applies GARP, (Growth at Reasonable Price) for stock selection.

### DEBT

High-quality AAA/Sovereign papers, managed actively

### ARBITRAGE

Hedged equity exposure to capture spreads in volatile markets

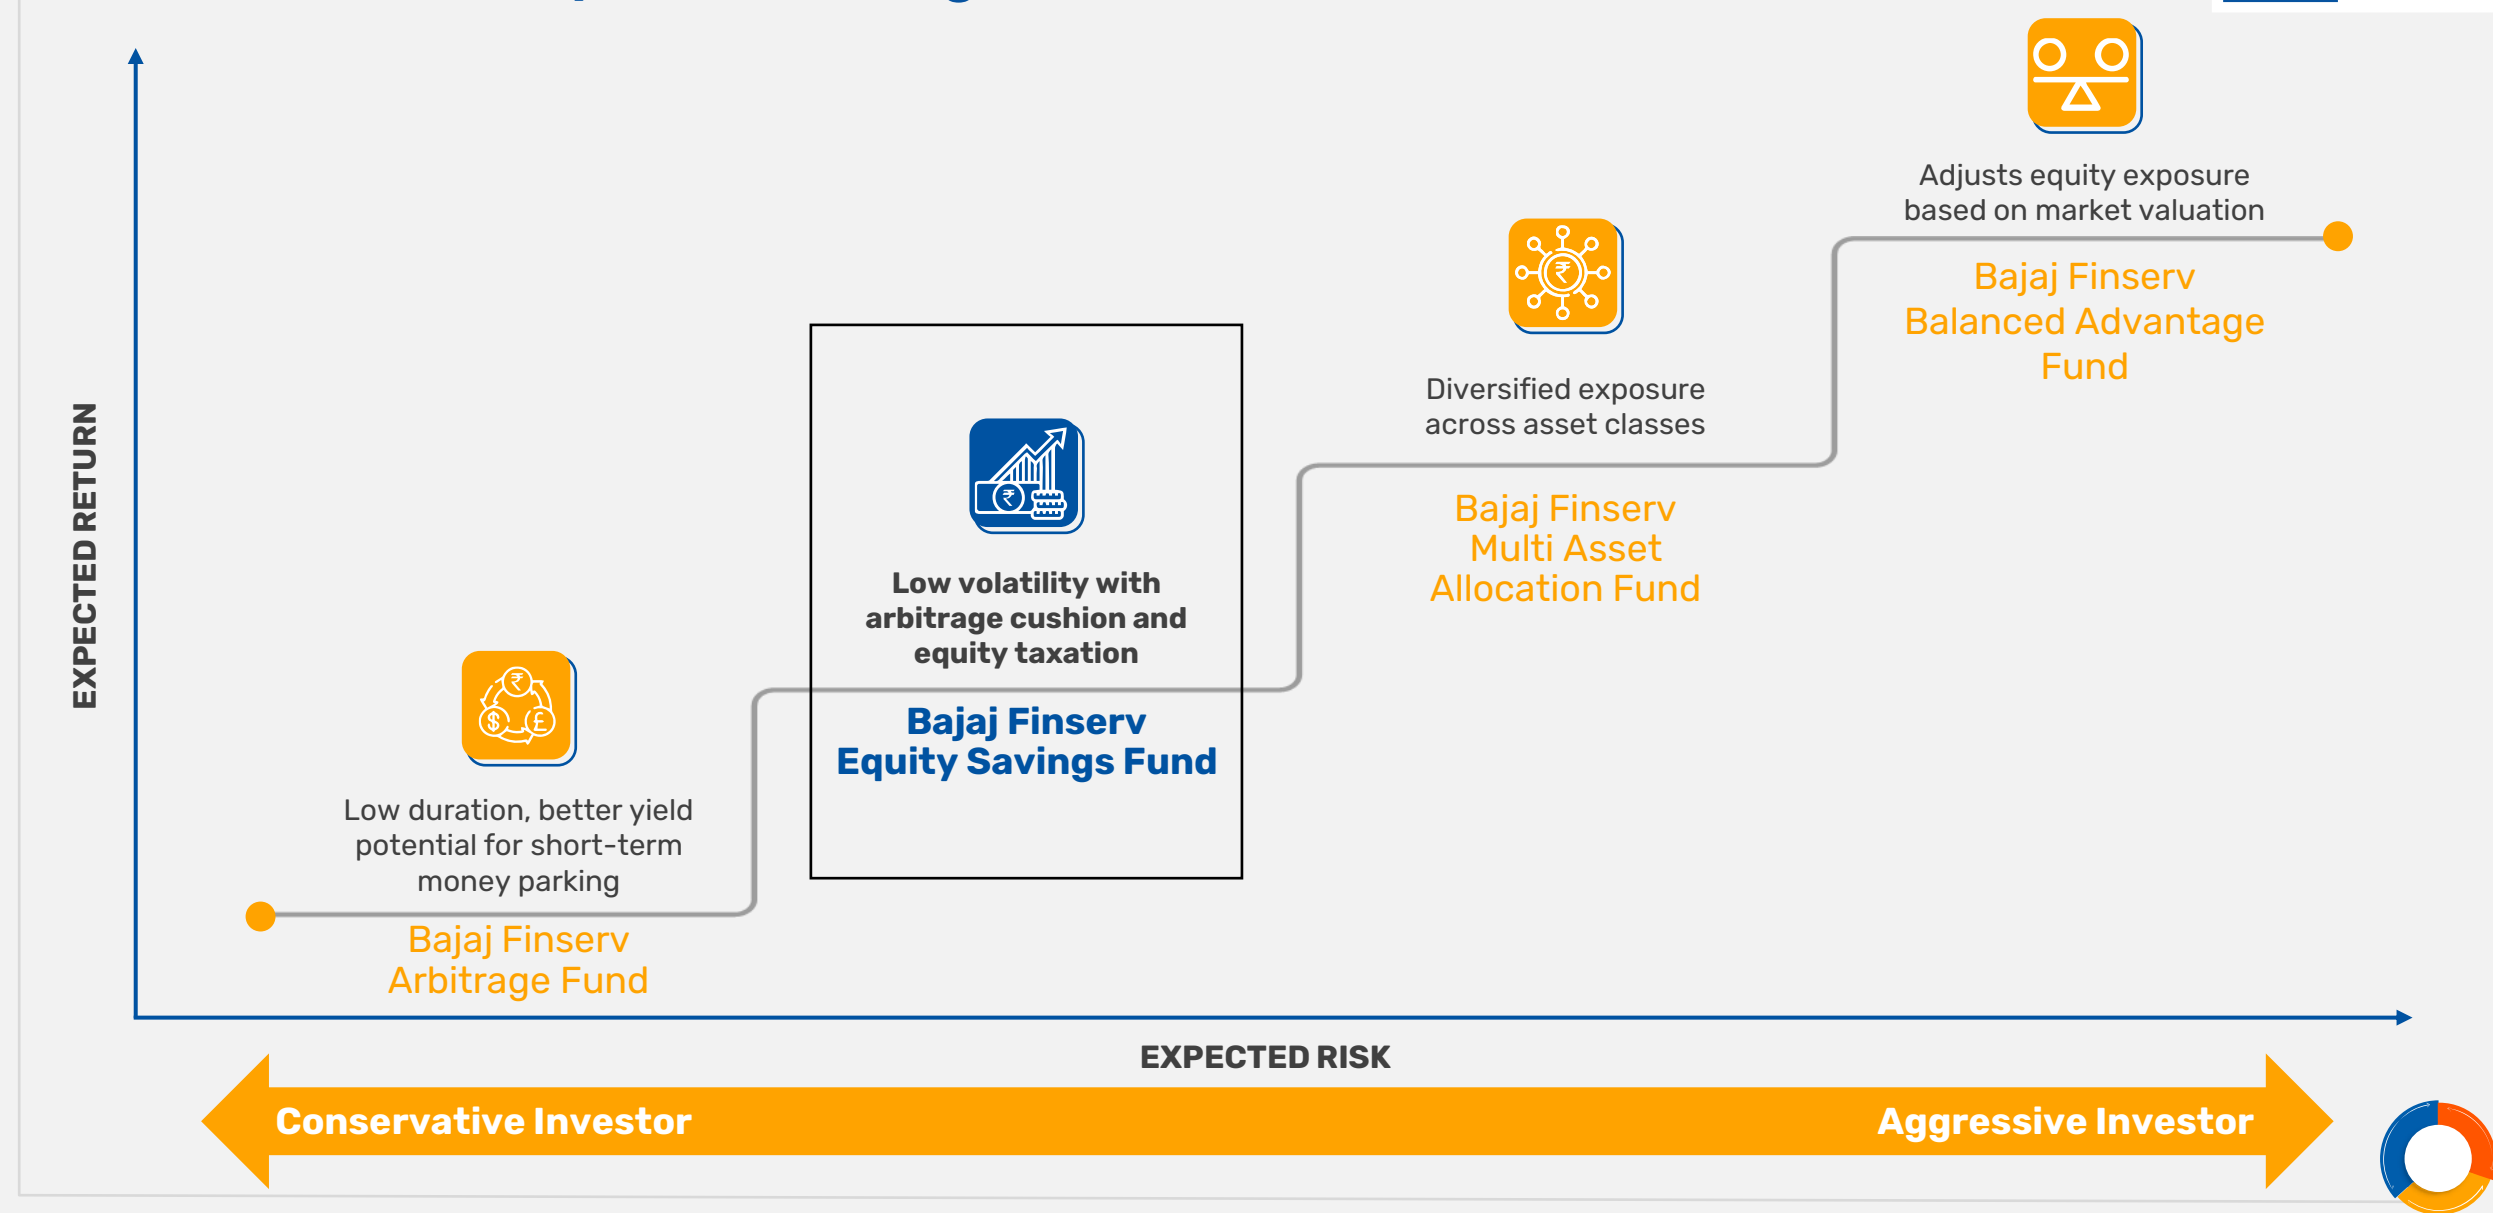

Net Equity
 Debt
 Arbitrage

Component	Allocation
Avg. Net Equity	~20%
Avg. Arbitrage	~45%
Avg. Debt	~35%

# Risk vs Return: Hybrid Offerings

# Why Invest in Bajaj Finserv Equity Savings Fund

## Measured Equity Exposure

- Net equity typically maintained between **10–40%** during normal circumstances
- Helps reduce portfolio volatility while still participating in upside
- Delivers a relatively stable and reliable investment experience, even amid dynamic market conditions.

## Strategic Allocation to REITs & InvITs

- Adds a **new layer of diversification** with potential for stable asset backed income
- Offers investors access to **alternative growth assets** within a traditional mutual fund wrapper

Smart  
allocation

Alternative  
assets

A forward-looking  
strategy

# How the Blend Works in Real Markets?

## SIDEWAYS MARKET

Arbitrage → Captures Spreads

Debt → Steady Income

## BULL MARKET

Equity → Drives Growth

## BEAR MARKET

Debt → Provides Cushion

Low Equity → Limits Drawdown

# Who should invest?

Bridging the gap between comfort and compounding – for multiple investor needs

## Cautious Optimist

Wants equity exposure, but not full market swings.

Prioritizes consistent returns and steady compounding

Ideal for those shifting from traditional Fixed income avenues.

## Income Planner

Looking to generate stable withdrawals (e.g., SWP)

Prioritizes reliability with some growth

Wants flexibility without locking funds

## Strategic Allocator

Seeks tax-efficient returns by maintaining a low volatility strategy while shifting between market opportunities.

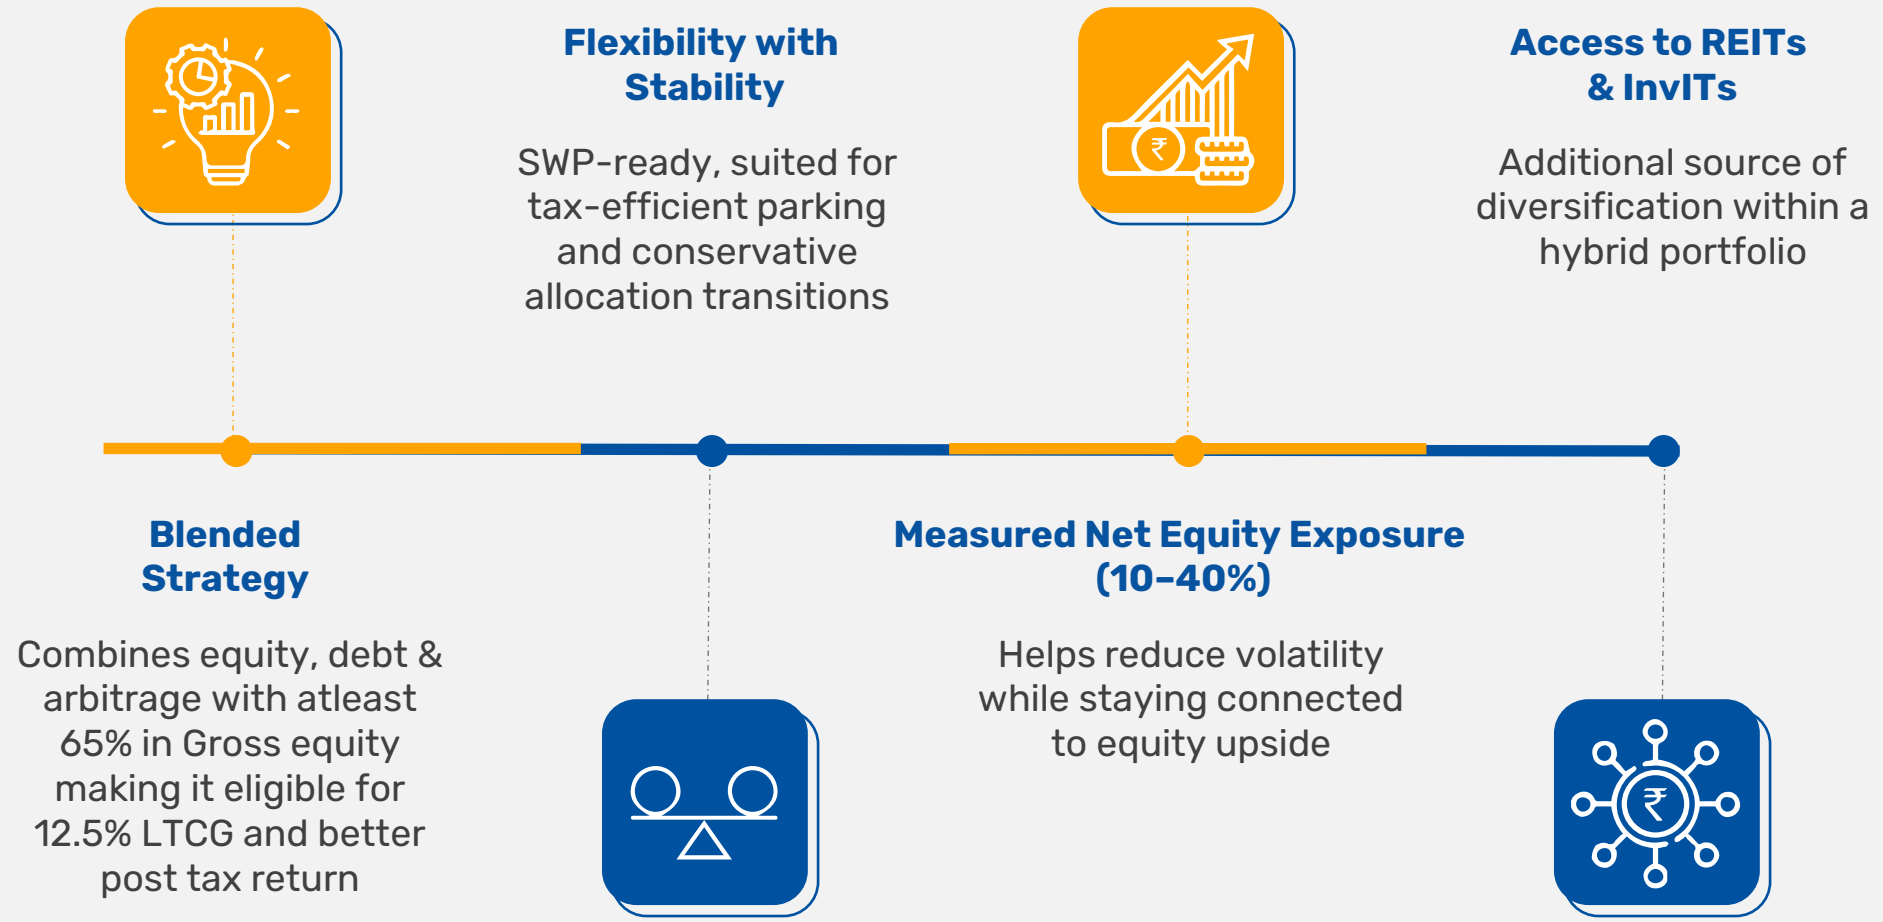

Adjusts allocation based on market timing

Lower drawdown compared with an equity fund

# Summary

Taxation-related information is based on prevailing tax laws and is subject to change based on any change in tax laws. An investor/prospective investor should consult with tax advisor for understanding taxation related implications.
